COLLECTION 2016

THE TIMELESS BEAUTY
OF SOLID WOOD

THE TIMELESS BEAUTY
OF SOLID WOOD

For 20 years now, we have been making timeless furniture out of solid wood. We always work from what we firmly believe is the essence of good design: authenticity, simplicity and impeccable craftsmanship to create sustainable pieces full of character, made from oak, teak and walnut.

Behind the simplicity of our furniture lies a constant drive for innovation

Behind the simplicity of our furniture lies a constant drive for innovation. Our product development team is always on the lookout for new techniques and tools for processing wood. Each new design is revised and reworked down to the tiniest detail. We finish our products in our own workshops in Indonesia, Vietnam and Serbia. We want everything to be in line with our design values from beginning to end.

Today, our brand is considered an international trendsetter with impact on the market worldwide. In addition to our Belgian head office in Boom, we also have offices near Marseille, in Singapore, Indonesia and Hong Kong. Production facilities are spread over three different sites in Indonesia, Vietnam and Serbia and we currently employ over 2000 people. In 2016 Ethnicraft branded furniture is sold through an extensive network of retailers in more than 50 countries worldwide. Our collections can be found in the most diverse interiors all over the world, where they age beautifully as years go by.

on page 18, 30 and 10.

Ethnicraft sideboards

CLEVERLY DESIGNED MASTERPIECES

A sideboard is a must-have if you want to keep your interior uncluttered and well organised. So it is no wonder that we have an extensive range of cleverly designed sideboards in oak, teak and walnut, each with its own characteristics. We will make sure you find the one that matches your personality and style.

Since we started producing furniture, our sideboards have become one of the most successful items in our collections. Designed for daily life they provide maximum storage space and functionality. With their clean lines and well-balanced volume they add style to every room without being obtrusive. Add some extra character to the room with Stonecut for example, our sideboard with a fascinating interplay of lines on its doors.

TABLES

Oak

Life has many different scenarios and you never know what will happen next. Unexpected guests for dinner? A growing family? Our extendable tables are multi-functional and adapt easily to all circumstances. They immediately offer additional space for quite a number of extra visitors or diners.

Just a little pull and the hidden extensions make room for many. No wonder our user-friendly extendable tables are one of the most desirable on the market. We are constantly expanding our range and for 2016 we are very pleased to introduce the popular Straight table in an extendable version. Do you prefer a more solid look? Try the Double Extendable. This teak masterpiece is now also available in oak. The double feet are a particular characteristic that gives this table an unmistakable presence.

*Unexpected guests? No problem.
Our extendable tables adapt
easily to all circumstances*

Slice was already a dining table with a unique character, but we added a little extra. This oak table can easily be extended without interruption of the wood grain pattern

Slice extendable dining table legs 8 × 8 cm
51942 140/220 × 90 × 76 cm

Slice extendable dining table legs 10 × 10 cm

53031 120 × 120 × 75 cm

Osso round table high - Blackstone
53037 120 × 120 × 88 cm

*A round table makes
dinner time even cosier*

Dining tables are all about bringing people together to share a meal and quality time. We have an extensive collection of tables in many sizes and styles, suitable for all kinds of interiors, whether you have limited space or plenty of it. The Osso collection, for instance, was designed by Grain and Green, one of the top interior design studios in Indonesia and Singapore. The range has subtle oriental influences and characteristic rounded edges. The Osso round table became part of the Ethnicraft family last year and was first manufactured in walnut (p. 180), but is now also available in oak and in our Blackstone finishing.

The Osso dining tables are also available in walnut (p. 188).

In-house designer Alain Van Havre designed a successful dining table with interlocking legs. The result is a stylish piece that is perfectly stable

Mikado dining table
50178 240 × 110 × 76 cm

*Our Circle dining table is all about inspiring
your family to spend a little more time at the table*

Circle dining table

50165 136 × 136 × 76 cm

50164 163 × 163 × 76 cm

The Circle dining tables are also available in teak (p. 130) and walnut (p. 186).

The Pettersson table is characterised by the way the table legs are crossed. The table looks Swedish, and so it should: it was designed by Swede Patrik Pettersson

Pettersson dining table

designed by Patrik Pettersson

50566	180 × 90 × 76 cm
50567	200 × 90 × 76 cm
50568	220 × 100 × 76 cm
50569	250 × 100 × 76 cm

The Pettersson dining tables are also available in teak (p. 132).

With the design of the Apron dining table we pushed the rules of gravity and technical craftsmanship to its limit. The tabletop looks as light as possible while the legs provide a stable base for ultimate user's comfort

Apron dining table, legs 8 × 8

50589 160 × 90 × 76 cm

50588 180 × 90 × 76 cm

- 50390 200 × 35 × 45 cm

CHAIRS

Oak

The N3 bench is an elegant eye-catcher made of slim pieces of solid wood

Our benches in oak and teak are clever space savers: they provide extra seating at the table, but can also be used to display books and magazines or to make a decorative corner in a bit of lost space. They also look good in the hallway, with shoes and baskets stored underneath. And why not use them in the bathroom, dressing room or office, or at the foot of your bed? A made to measure cushion will add a touch of luxury and turn the bench into a comfortable seating area.

The N3 bench is a newcomer this year. Just like the rest of the N range - a collection of chairs designed by Singapore-based designer Nathan Yong - this bench is an elegant eye-catcher made of slim pieces of solid wood. It can easily be combined with most of our tables or become a style statement against walls or in hallways.

Tripod table large
50528 70 × 70 × 60 cm

SIDETABLES

Oak

With its clean lines and contemporary aesthetic, the Tripod side table by Heidi Earnshaw is, without a doubt, a winning piece. Heidi's Toronto-based studio specializes in the design and production of solid wood furniture and functional objects. She takes her cue from Japanese and Scandinavian architecture, and reinterprets historic pieces to create timeless modern furniture. Therefore it is no surprise that one day our paths would cross. We launched the Tripod oak and teak side tables in 2013 and have been adding new versions ever since. For 2016 we are introducing two side tables in our glamorous Blackstone finishing and the coffee table in oak and a sophisticated walnut version. Both have a powerful, slightly mysterious look and will make stunning additions to your interior.

This light-footed side table will make a great addition to your interior

Tripod table
50508 46 × 46 × 56 cm

Tripod table large
50509 70 × 70 × 60 cm

Nordic II bed

SLEEPING BEAUTY

BEDS

Oak

With its top-quality material and timeless design, this bed is built to last

Inspired by our Nordic range (p. 22-25) we developed Nordic II, a bed that combines elegant lines with the purity of solid wood. With its top-quality material and timeless design, it is built to last for many years. Combine your bedroom furniture with timeless accessories and bed linen in natural colours to enhance the relaxing effect. Or go bold and opt – like we did here – for a graphic statement.

The Madra bed is also available in teak (p. 160). The Azur bed is also available in teak (p. 162).

Choosing the perfect bedside table

A LA CARTE BEDROOM

An interior with personality is all about creativity and inventiveness. Take nightstands: every bed in our collection can be completed with a matching bedside table. Unless you want to be different... The Ethnicraft collection has numerous side tables and stools that seamlessly transfer from the living room to the bedroom and make wonderful bedside tables. Or why not mix and match our beds and nightstands? The possibilities are endless and you'll be able to create a bedroom that matches your personality.

BEDSIDE TABLES

Oak

Air bedside table, 1 drawer
51210 56 × 44 × 37 cm

UB bedside table, 1 drawer
51209 50 × 44 × 37 cm

Azur bedside table, 1 drawer
51140 48 × 44 × 48 cm

Madra bedside table, 1 drawer
51200 60 × 43 × 27 cm

Nordic II bedside table, 1 drawer
51175 57 × 40 × 37 cm

Our beds have matching bedside tables but why not choose one of our side tables or stools? They seamlessly transfer from the living room to the bedroom and make wonderful night tables

DRESSERS

Oak

If the access to your bedroom is too narrow, this collection is ideal: KDS is delivered as flat pack furniture

Our mirrors are also available in teak (p. 172).

TEAK

Authentic charm

The Wave Collection

NOW ALSO AVAILABLE IN TEAK

The subtle contours of the cabinet doors and the distinguished shape of the feet are what make the Wave collection so special. The sideboards and bookcase offer excellent storage space and the clever combination of doors, drawers and glass elements makes them extremely decorative. Doors and drawers have no handles and feature a soft closing mechanism. The playful aspect and vintage feel of the Wave range make this a truly striking collection. We have therefore decided to extend it with teak and walnut versions (p. 176).

Double extendable table

ROOM FOR EXPANSION

Table becomes breakfast corner becomes workspace becomes family table becomes party table. Dining tables are the centre of our daily life. Whether you want to play a game, help with homework or fold the laundry, our extendable tables are perfect for the job. No wonder we decided to add an extendable version of our successful Double dining table to the range.

Double has been a part of the Ethnicraft family for a long time. This famous table, designed by Angela De Geus, is a successful combination of a solid look and pure lines. Although the table looks heavy and solid, it can very easily be extended single-handedly. It takes a few steps and no more than seconds to make space for whatever will be happening next in your home.

TABLES

Teak

Our Double table can be extended single-handedly to create extra space in seconds

OFFICE

Teak

Under the stairs, on the landing, in a corner of the bedroom or by the window: thanks to the digital evolution, the (home) office takes up less space than ever. Our range includes discreet, basic desks (p. 159) that are perfect to work at. Do you need a bigger office? We have plenty of practical furniture that meets all your needs. Or why not work at one of our tables? Our teak Stretch and Slice extendable tables, for example (p. 126 & p. 128) are both perfect for flexible work situations. Shelving systems (p. 148-155) are great for keeping the office tidy and divide a room easily in two. Keep coats, keys and bags organised with our Utilitiles (p. 155) that can be combined in many different ways.

Why not work at one of our extendable tables? They are perfect for flexible work situations

CHAIRS

Walnut

Our walnut stools come in a high and low version and were designed to go with the Osso table

All our chairs combine timeless classic design with sturdiness - which allows you to enjoy them for many years. Take our walnut Osso stools, with their super stylish look. They come in a low and high version and were designed to go with the walnut Osso table, but also work by themselves. Another newcomer is the Bjorsing, an 'oversized' armchair that is a style statement in itself, and works in all kinds of interiors.

*The Osso stool high is also available in oak and Blackstone finish (p. 65).
The Bjorsing chair is also available in oak (p. 65).*

ABOUT SOLID WOOD

Wood, like any other natural and porous material, continues to absorb and release humidity throughout its life. Ethnicraft designs furniture that adapts well to the hydrometrical conditions of its environment. The structural design of the furniture allows the wood to expand and contract.

Variations in wood grain, texture & colour, knots and other natural characteristics are inherent in solid wood. We believe that these imperfections contribute to the charm of Ethnicraft products. Wood is a natural product and we finish each piece with great skill and artistry. Our craftsmen use different wood working techniques such as wood inlaying and the use of wood paste. Ethnicraft consciously selects a specific quality of wood that adds more character to its designs.

OUR COMMITMENT

Wood has always been the core material in the Ethnicraft range. We are deeply aware of the impact of our industry on the environment and we take environmental issues to heart: the origin of the wood, the energy we use in the production and distribution process, the treatment of the products and waste reduction - we try to be as environmentally friendly as possible.

The origin of our core material

Ethnicraft's teak wood comes from two main sources. On the one hand, we carefully reclaim timber from neglected buildings or old warehouses, mainly from the island of Central Java in Indonesia. On the other hand, Ethnicraft works closely together with the Indonesian governmental body in charge of managing the teak plantations originally set up by the Dutch about 150 years ago. This government agency applies strict policies with regard to annual replanting and the size and quantity of trees that can be felled each year. Where our oak is concerned: our sister factories use French and Serbian oak from well-managed forests in Europe. Finally, the walnut we use for our designs comes from American soil.

No waste

Production waste such as leftover logs, wood and sawdust are re-used for other purposes. The sawdust from logs is either used as fuel for the drying ovens or compressed as a base for pallets. All the leftovers from cutting planks to size are recycled and used as base material or as box joints for panels.

FSC® label for our furniture

Our commitment to the environment is reflected by the FSC® CoC (Chain of Custody) certification of our distribution centers. FSC® is a worldwide independent, non-governmental, non-profit organization that promotes responsible management of the world's forests. In other words, this organisation guarantees that products carrying the FSC® label come from forests that are managed so that they meet the social, economic and ecological

needs of present and future generations. In the case of Ethnicraft NV and Azur, the CoC certificate guarantees that the company is perfectly placed to buy, stock and sell products with a specified FSC® certificate, originating from sustainably managed forests, controlled sources and reclaimed materials, or a mixture of these. At the moment, several of the ranges sold by Ethnicraft carry a FSC® 100% Recycled label, meaning that the products are made from reclaimed timber. Other collections carry the FSC 100% label, which means that these products are made from wood originating from FSC certified plantations. These ranges are clearly indicated in the catalogue. Moreover, every effort is being made to increase the number of ranges with an FSC® label.

OAK FURNITURE

Our oak furniture is finished with pigmented hard-wax oil. This finish forms a natural protective coating that acts as a repellent against most common substances and liquids, but is not a foolproof guarantee against stains.

Daily care

- Dust regularly with a dry, non-fluffy cloth.
- Clean with a damp sponge or cloth (not too wet!) with a mild solution of water and natural soap (no detergent).

Cleaning & refreshing the surface

- When the wood starts to feel dry or in the case of stains, Ethnicraft recommends Osmo Liquid Wax Cleaner* (3029). Do not use this product daily. The Liquid Wax Cleaner is no guarantee against stains.
- This does not apply to the Oak Blackstone finish.

Stubborn stains & repairs

- As time goes by, depending on the amount of wear the furniture gets, the original hard-wax coating may need to be renewed. Make sure the surface is clean and dry. Use extra fine sand paper (minimum 320 grit) and rub in the direction of the wood grain, then apply the Osmo Hardwax Oil Natural (3041). The protective oil is no guarantee against stains.
- For furniture with the Oak Blackstone finish, apply only the daily care treatment.

TEAK FURNITURE

Our teak range comes without any finish or protective treatment. The wood is merely polished, allowing the natural oils to rise to the surface. The high density of teak has the advantage that stains stay on the surface and do not penetrate into the wood easily.

Daily care

- Dust regularly with a dry, non-fluffy cloth.
- Clean with a damp sponge or cloth (not too wet!) with a mild solution of water and natural soap (no detergent). Regular cleaning with a natural soap solution will gradually build up a protective layer: as the wood absorbs the soap, it will become more stain repellent.

Preventive treatment

- If you want to protect the wood from the start, apply a protective coating. We recommend Osmo Hardwax Oil, clear matt (3062). This seals the pores of the timber and creates a natural protection. Even then, stains and marks should be removed immediately. If liquids or substances are left to penetrate the wood, the furniture will eventually get stained.
- This product will darken the wood.

Stubborn stains & repairs

- Use extra fine sand paper (minimum 320 grit) and rub in the direction of the wood grain.

How to take care of our furniture

Every piece of furniture has its own maintenance requirements, depending on the lifestyle and needs of the user. Caring for solid wooden furniture requires some skill, so it is important to be well informed. Here, you will find our maintenance guidelines for the different types of wood. Do keep in mind that these are only recommendations and that Ethnicraft cannot be held responsible for the results.

WALNUT FURNITURE

All walnut furniture is first tinted with coloured oil and then finished with natural oil. This finish forms a natural coating, protecting the wood against most substances and liquids, but is not a complete guarantee against stains.

Daily care

- Dust regularly with a dry, non-fluffy cloth.
- Clean with a damp sponge or cloth (not too wet!) with a mild solution of water and natural soap (no detergent).

Cleaning & refreshing the surface

- When the wood begins to feel dry or in the case of stains, Ethnicraft recommends Osmo Liquid Wax Cleaner* (3029). Do not use this product daily. The Liquid Wax Cleaner is no guarantee against stains.

Stubborn stains & repairs

- As time goes by, depending on the amount of wear the furniture gets, the original hard-wax coating may need to be renewed. Make sure the surface is clean and dry. Use extra fine sand paper (minimum 320 grit) and rub in the direction of the wood grain, then apply the Osmo Hardwax Oil Natural (5063). The protective oil is no guarantee against stains.

UPHOLSTERED FURNITURE

The upholstery of the sofas and chairs is dry-clean only, which means that the use of water and soap is not recommended since it may leave lighter patches where the fabric has been cleaned. Washing a cushion cover in the washing machine, even at a low temperature, will not only make the colour fade, but also shrink the fabric.

The upholstery of the teak chairs is made of 100% Belgian linen. It cannot be removed and stains can only be treated with dry-cleaning products.

Our leather Saloon sofas are designed for indoor use only. All leather must be cleaned with a dry or, if necessary, slightly dampened cloth. Avoid rubbing hard when cleaning. Hoover the seat to remove dust or crumbs. Our leather does not require feeding but can be enriched with a quality leather cream.

Do's & don'ts

- Recommended humidity in the room: between 40% and 60%.
- Ideal room temperature: 21°C during the day, not below 14°C at night.
- Avoid exposure to extreme conditions: do not place furniture near heating sources or in highly air-conditioned spaces.
- Although our furniture - apart from teak - is treated with a protective finish, it can still be susceptible to stains. We therefore recommend that any spills are removed immediately to prevent staining.
- When cleaning the surface, always work in the direction of the wood grain.
- Like any natural material, oak will darken or grow yellow as time goes by. Teak and walnut will fade slightly in direct sunlight. Do not place your furniture in direct sunlight and move any objects placed on the furniture from time to time, to prevent colour differences.
- Use place mats to prevent hot pots and pans and cold glasses or bottles from leaving marks on the furniture.
